

***Energean supports the Kavala basketball team, a city a few miles away from the
Prinos offshore Oil Field***

The team, which will compete in the 2018-2019 A2 Basketball League Championship, is named after the Company and will represent our brand by displaying our logo in all its games and activities.

Mr. Vangelis Pappas, Club Chairman, stated:

“Energean’s support makes us stronger and help us remain committed to further developing basketball in our city. Teaming up with Energean will enable us to solve several problems we were forced to deal with in the past. We hope that this collaboration will be in place for a long time for the benefit of the city and our fellow citizens who are devoted to the specific sport.

On behalf of Energean Greece, Vice President and Managing Director Dimitris Gontikas stated:

“We are very happy to lead the effort of the basketball team to achieve a new round of growth in the context of Greece’s Basketball League. Energean's ethics and culture have been guiding us in making decisions that support the local societies and the areas which have been hosting our activities and make us a part of their routine life.

There is no doubt that basketball represents one of Kavala's sport trademarks. By supporting Energean – Kavala BC, we do not only aim to create a strong team that will gain victories on the court, but also to further develop the ideal of sport and attract a big part of the youngsters of Kavala to basketball, which is Greece's national sport.

We also strongly believe that through this collaboration, a wider range of activities will develop in the city for the benefit of the local economy and society”.

The team's new logo and APPAREL were presented during an event that took place in Kavala on September 6th, 2018 and was attended by Mr. Mathios Rigas, CEO OF Energean Group.
